## Reflections from our latest interns for this role

**Justin**  
SMU  
(2020)

“I would say that if you do not have any experience or want to know what reinsurance is like, this internship is very educational and gives you greater understanding. The working environment is great, and everyone is very helpful which enables you to have a better learning experience.”

“The internship is a fulfilling one as you will get to experience the first-hand work of what pricing actuaries do. Training provided was enriching and everything was handled well.”

**Benjamin**  
NTU  
(2020)

**Ai Lin**  
SMU  
(2020)

“This internship would be a valuable first internship for many, it enables you to hone your excel and other technical skills in a positive and supportive learning environment. The working experience was a positive one overall.”

“The internship is very fulfilling, and I learnt a lot of things. Beyond what was required for the data crunching, we also learnt various concepts that were important to the entire process of pricing.”

**Anthony**  
NTU  
(2020)

**Andre**  
SMU  
(2020)

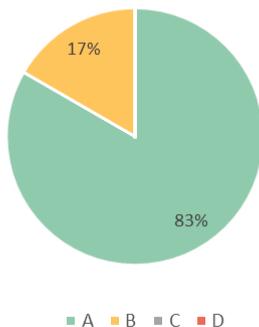

“This internship will give you a good understanding of the reinsurance industry. Moreover, the working culture here at PartnerRe is excellent.”

“This internship has been more than fulfilling; I have a much deeper understanding of the reinsurance industry, the pricing processes and tools used, and conducting preliminary data analysis, through the close guidance of my supervisors and help of my peers. But more importantly, I thoroughly enjoyed the few months I had here, the environment is very warm and welcoming, I have also forged many new friendships, and this entire experience is something that I will always cherish and be grateful for.”
