

## **About the Speakers**

### **Charlene Lee, Senior Actuarial Data Scientist, Swiss Re**

With 15 years in the insurance/reinsurance industry, Charlene has had the opportunity to both experience traditional actuarial roles in pricing and valuation, as well as take on a unique position in the Data Science team with Swiss Re, advancing greater collaboration between the business, actuarial and data science domains. Charlene is a qualified actuary (FIA), and, being deeply passionate about bringing health to people, is currently pursuing a Master of Public Health. It is this sense of purpose that led her to chair the SAS COVID-19 Workgroup, through which she hopes to bring valuable insights as enablers for the industry to better support the community.

### **See Ju Chua, Corporate Planning General Manager, Sompo Holdings (Asia)**

See Ju has 13 years of experience working in the general insurance sector in Asia and in the UK. Prior to joining the Corporate Planning Department of Sompo Holdings (Asia), See Ju was the Head of Reserving and Capital responsible for the overall supervision of reserving function and IFRS 17 implementation across 14 markets in the Asia region. See Ju is a qualified actuary (FIA) and she holds a PhD in Statistics. See Ju is active in volunteering for the actuarial profession. She is on Council of the Singapore Actuarial Society since 2016 and she is also a Vice-Chair of the Asia Task Force under the International Actuarial Association (IAA) Advice and Assistance Committee.

**Vanessa Lou, Partner, Ernst& Young**

Vanessa is a Partner at EY, leading the actuarial practice in South East Asia. She is a qualified actuary (FIAA) with over 14 years of experience in the insurance industry in Asia Pacific. Vanessa has assisted a large number of insurers in the region on financial reporting, actuarial modelling, transaction, distribution and product strategy, and market assessment. She is passionate about the transformation that insurance industry is experiencing from COVID19, and how the industry can serve those in need better.

**Shubian Sun, Senior Actuary, GenRe**

Shubian is senior Actuary of GenRe Asia. He is responsible for overseeing both the pricing and business performance of GenRe Asian. His experience covers pricing, product development, reserving and capital management for both insurance and reinsurance companies. Shubian is a qualified actuary (FIA).

**Paul Wee, Regional Actuary and Director of GI Products and Underwriting, Bolttech**

Paul Wee has 18 years P&C actuarial experience and is currently regional actuary and Director of GI Products and Underwriting in digital insurer Bolttech, where he recently joined from Swiss Re. He volunteers in the SAS as Chair of the SAS ERM Committee and is a member of the SAS COVID working group. Paul is a Fellow of the Institute & Faculty of Actuaries UK.

**Arnaud Ferry, Corporate Actuary, Singlife**

With 10 years in the life and health insurance industry across South East Asia and Europe (France), Arnaud has experience in pricing, product development, valuation, health claims and risk management. At Singlife, Arnaud has led multiples actuarial projects with one objective: to unlock the potential of money for everyone! He is a qualified actuary from the French Institute of Actuaries and holds a master's degree in Actuarial Sciences.

**Lydia Williamson, Associate Director, Willis Towers Watson**

Lydia has more than 12 years' professional experience and has been specializing in health insurance for the last 7 years. Before joining WTW Lydia was a health actuary with a health administrator and managed care organization in South Africa, where she was responsible for pricing, reserving and product development for client schemes as well as providing strategic health risk management advice to clients in partnership with managed care experts. At WTW Lydia leads the development of strategic analytics solutions to assist life insurers across Asia with implementing health risk management strategies. Lydia is a qualified actuary (FIA).

**Kokleong Choy, Director, Risk Software, Aon**

Kokleong is a qualified actuary with broad experience across the life, health and non-life insurance sectors. He has been an actuary since 2011 and has been a member of the Aon Risk Software team since 2016, combining his expertise in data and analytics along with technology and software development. Kokleong consults with clients using ReMetrica, Aon's stochastic platform for dynamic financial analysis,

while working with the development team in designing new features and capabilities. Formerly a biomedical engineer, he retains an interest in health issues and contributing to solutions and insights in the health domain. He holds a Bachelor's and Master's in Biomedical Engineering from Johns Hopkins University and is a Fellow of the Institute and Faculty of Actuaries, UK.

**Jairus Ng, Actuarial Associate, PwC Singapore**

Jairus is an Associate in the Singapore Actuarial Service team with PwC Asia Actuarial Services. Jairus has over 2 years of experience working on both life and non-life insurance projects. These include, but are not limited to, actuarial audits and valuations, IFRS17 projects, and data analytics.

**Jack Xia, Chief Actuary, InsurTech, Igloo**

Jack is the Chief Actuary of Singapore-based full-stack InsurTech Igloo. He is a founding team member of the start-up which is one of the most successful InsurTech in the region with presence in major countries in Southeast Asia. Jack's experience includes developing cloud-based systems in actuarial and data science domains, design and implementation of data and tech driven insurance products. Jack is qualified actuary (FSA), Chartered Enterprise Risk Analyst (CERA), and Professional Cloud Architect.
